Provided 8,456 home care visits that include skilled nursing, physical therapy, medical social work and personal care services through Medicare-certified home health agencies.

Issued 12,318 certified copies of certificates in Guntersville on a while-you-wait basis regardless of where in the state the event occurred.

Conducted 645 inspections of restaurants, schools, and other food service and lodging establishments including child care centers to ensure standards in environmental health are maintained.

Provided 159 visits for tuberculosis testing, medication, physician services, epidemiologic investigations, hospitalization, and laboratory services for those with known or suspected TB disease and their contacts.

Provided 4,532 immunizations including childhood and adult vaccines. Provided Alabama Certificates of Immunization required for school entry.

The Alabama Department of Public Health works closely with your community to protect the public's health through emergency preparedness activities, health care coalitions, training and response.

The mission of the Alabama Department of Public Health is to serve the people of Alabama by assuring conditions in which they can be healthy, and has served Marshall County since 1924. Our purpose is to provide caring, high quality, and professional services for the improvement and protection of the public's health through disease prevention and the assurance of public health services to resident and transient populations of the state regardless of social circumstances or the ability to pay.

All services from the Alabama Department of Public Health are provided to eligible persons without regard to race, color, creed, national origin, political beliefs, handicaps or sex. Payment for services varies. No one will be denied services if unable to pay.
