

Cancer Prevention and Early Detection Among Latino Immigrants: How Can Health Care Providers Maximize Their Efforts?

Satellite Conference and Live Webcast

Thursday, February 4, 2010 • 1:00-2:30 p.m. (Central Time)

2:00-3:30 p.m. (Eastern) • 12:00-1:30 p.m. (Mountain) • 11:00 a.m.-12:30 p.m. (Pacific)

How can cancer prevention and control messages and interventions targeting Latino immigrants be incorporated in clinical practice? Based on extensive work conducted at national and local levels among Latino immigrants, speakers will discuss barriers and motivators to cancer screening. Get answers and help narrow the health care gap between two cultures.

FACULTY

Amelie Ramirez, DrPH, MPH

Professor of Epidemiology and Biostatistics
University of Texas Health Sciences Center at San Antonio

Isabel C. Scarinci, PhD, MPH

Associate Professor of Medicine
Division of Preventive Medicine
University of Alabama at Birmingham

PROGRAM OBJECTIVES

1. Review sociocultural factors associated with cancer prevention among Latinos immigrants.
2. Identify strategies on how providers can address cancer prevention and early detection among Latino immigrants from a culturally-relevant perspective.
3. Recognize strategies to engage other sectors in cancer prevention and control efforts among Latino immigrants.
