#

## **Objectives:**

1. Describe the epidemiology, clinical manifestations, and the latest information on the management and prevention of Zika virus disease
2. Discuss current recommendations on diagnostic testing for Zika virus infection
3. Articulate the importance of early recognition and reporting of cases
4. Review the latest recommendations for pregnant women and others with possible Zika virus exposure
5. Discuss evaluation of infants with microcephaly, intracranial calcifications, and other abnormalities linked to maternal Zika virus infection
