Collaborative Efforts for Emergency Planning Between ADPH and Healthcare Organizations

**Continued - Responses from "List one thing you will do differently as a result of this training:"**

F/U real time in 2009 H1N1 response	Be more active in Emergency Planning
Better able to find inform (web) as well as understanding	Read, gather more information on emergencies
Give better parking instructions	Plan
PLAN-PLAN-PLAN	Enhance planning and training
Taking vent criteria to CCU, Infection Control Committee and MCC for approval	Make better use of ADPH resources
Some updates	Add PaO2/FiO2 to blood gas results (for easy SOFA score calculation)

**Responses - "Other education programs you would be interested in viewing (list each entry made on the original evaluation):"**

Infection Prevention and Control programs	Excellent program!
Would be good to have more time to develop the topics that were taught today	Evacuation help!
Additional emergency management and pandemic illness classes	All of the content was excellent and pertinent!
I would like to see CEU's for other health care providers. Not everyone in attendance is a nurse.	Any available related to emergency preparedness
HIV	Drills for emergency management
Fit testing for masks/ventilators.	Great program and use of time
Vent. Training.	N/A
Any	Disaster planning – all hazards detail (all-day) program?
Safety/Fire. Etc.	Decon training – Train the trainer programs
Critical care staff – Ventilator issues.	Mr. Wible was outstanding. He has a great sense of humor.
Obtain CEU's through ASBRT for Respiratory.	Great! Thanks and continue these programs.
Triage training	Content excellent, to the point, good use of time
Other Emergency Management (EM) classes	Developing EM plans
Disaster drill planning	Any the state presents on emergency mgt.
John Wible to have a longer presentation!	How to get an alternate care site set-up?
Anything related to infection control
