

## **MEANINGFUL USE PROGRAM NEWS UPDATE: Medicaid's New Resource for Meaningful Use Technical Assistance for MU Eligible Professionals**

Effective December 1, 2015, Meaningful Use Technical Assistance will be available to all Medicaid Eligible Professionals who are current participants in the Meaningful Use EHR Incentive Payment Program. The service will also be available to those Eligible Professionals who are not yet participants in the EHR Incentive Payment Program, but are interested in joining the MU program.

Alabama Medicaid has partnered with Management & Medical Consulting Services, Inc. (MMCS), to make this service available to our MU providers statewide. The scope of this service focuses on providing assistance to providers to help navigate the Meaningful Use submission process including the State Level Registry, attestations, risk assessments, clinical quality measures, post-payment audits, and health information exchange (HIE) activities.

The service is being provided at no cost to all our current and potential Medicaid MU Eligible Professionals.

If you are interested in taking advantage of this resource, or if you have any questions about the program, please contact any one of the following individuals below:
