

## BUILDING YOUR DIABETES EDUCATION PROGRAM

# Everything you need to know and more

Developing or operating a successful DSME program requires more than just an understanding of the National Standards for Diabetes Self-Management Education and Support.

What about reimbursement and documentation strategies? How do you write and follow up on CQI plans?

This workshop helps you navigate the elements required for a comprehensive DSME program.

#### WHO SHOULD ATTEND:

Anyone interested in starting a new program or improving an existing one.

By attending this program, you will:

- Define a successful diabetes education program
- Cover the National Standards for diabetes self-management education and support
- Explore reimbursement and documentation strategies for DSME
- Set SMART goals and develop a CQI process
- Participate in a live chart auditing to help you understand what it takes to pass a Medicare audit
- Learn marketing, recruitment and sustainability tools
