

Now You Can Help Every Student with Diabetes Succeed!

An Essential Addition to Your School Health Resource Shelf

With *Helping the Student with Diabetes Succeed: A Guide for School Personnel*, you can help ensure a safe learning environment and equal access to educational opportunities for all students with diabetes. Now you can put this updated edition of the guide from the **National Diabetes Education Program** to work in your community.

Designed to Empower School Personnel, Parents, and Students

Developed with and supported by leading diabetes, pediatric medicine, health professional, and education groups, the guide empowers school personnel to help meet students' routine and emergency diabetes care needs throughout the school day.

The Right Tool at the Right Time

Along with its user-friendly tools and comprehensive diabetes resource list, the guide provides school personnel, health care providers, parents, and students a team approach for working together to carry out the student's diabetes care plan.

You'll find these important tools:

- ▶ **Diabetes Primer and Glossary** with updated diabetes information from A to Z
- ▶ **Action Steps** for key school personnel, parents, and students so that everyone knows what's expected of them
- ▶ **Sample medical management and emergency action care plans** for health care providers and school nurses to adapt for meeting students' needs
- ▶ **Copier-ready handouts** for all school personnel
- ▶ **Review of school responsibilities under federal laws** including Section 504 of the Rehabilitation Act, the Americans with Disabilities Act, IDEA, and FERPA
