

# the.difficult airway course™ EMS

[www.theairwaysite.com](http://www.theairwaysite.com)

## The Definitive EMS Airway Course

- **Learn the full range of Airway Management** techniques—including use of extraglottic devices, medication-assisted intubation and cricothyrotomy.
- **Work with expert faculty** who know the unique challenges facing EMS providers. All of our faculty members are practicing medical providers who perform airway management regularly in their clinical practices.
- **Use all of the airway devices** in small group sessions.
- **Practice decision making and airway techniques** in Code Airway Stations.
- **Face the most challenging patient scenarios** in a no-risk environment. These include elevated ICP, pulmonary edema, cardiogenic shock, status asthmaticus, foreign body in the airway, direct airway trauma, multiple trauma with shock, and many more.
- **Meet your continuing education requirements.** This course is approved by CECBEMS, ASTNA and AAPA.
- **Receive a copy of the definitive airway textbook, *Manual of Emergency Airway Management*** by Ron Walls, MD and Michael Murphy, MD (an \$84 value!)

**“The best airway course I’ve ever attended!**

**The information I learned will change the way I deal with airway management.”** Brian King, NREMT-P, Delaware

**Date:**

**Location:**

### Didactic and Hands-on training in crucial airway techniques:

- Prediction of the Difficult Airway
