The Morgan County Health Department will hold a groundbreaking ceremony for its new facility on Thursday, Jan. 21, at 3827 Highway 31 S., Decatur (north of Poole Valley Road and west side of Highway 31 S.) at 10:30 a.m.

The state-of-the-art building will be constructed and engineered to meet both today's and tomorrow's community needs. The building will include a community room.

Acting State Health Officer Dr. Thomas Miller said, "I am happy to see the dream of improved public health facilities becoming a reality in Morgan County as it has in many other counties in the state. This facility should serve the public well for years to come."

This special event is made possible through the financial support of the Morgan County Commission and Commission Chair Ray Long. The Alabama Public Health Care Authority is providing the funding for the construction.
