6	<p>0 = Response missing; documentation does not address activity.  1 = Minimally responsive; documentation only indicates intention or beginning of planning for activity, or only a part of the activity has been addressed.  2 = Substantial, but incomplete response; documentation indicates that State has largely addressed activity, but response is not complete or actionable.  3 = Complete response; documentation indicates actionable plan.</p>	<b>Score (0-3)</b>	<b>Reviewers Comments</b>
7	<i>Respond</i>		
8	Interoperable communications network in place between State, public health, health care community, and other sectors.	2	There is no mention of redundant communications fax, pages etc that will go out with e-mails and phone calls. The ALERT portal seems an excellent start
9	Mechanism in place to address the concerns and needs of at-risk individuals and populations.	2	No mention of foreign language speakers, elderly and children
10	Mechanism in place to provide guidance (as needed) on infection control measures for health care and non-healthcare settings	3	
11	Procedures for reporting available beds using National Hospital Available Beds for Emergencies and Disasters (HAVBED) System definitions	3	
12	Procedures for deploying and tracking volunteer health care providers using the State's Emergency System for Advance Registration of Volunteer Health Professionals (ESAR-VHP) requirements	3	
13	Procedures developed and approved by an Ethics Committee for providing for the ethical distribution of scarce medical resources among the health care community	3

14	Procedures to expand healthcare services into non-hospital/alternate care sites including identification of locations, scope of care, procurement of staffing, equipment, supplies and pharmaceuticals	1	Not clear how offsite care will be staffed or where that will occur. The state plan gives that responsibility to volunteer organizations that cannot possibly handle the surge. How will hospitals and local public health respond to offsite care?
15	Activity Added by State:		
16	<i>Recover</i>		
17	Recovery mechanism in place to assist the health care community in restoring essential staffing, equipment, supplies and pharmaceuticals	3	
18	Recovery mechanism in place for assisting with plans for restoring essential mental health, substance abuse and congregate living services to pre-pandemic conditions.	3	
19	Recovery mechanism in place to perform after action reviews to identify strengths and weaknesses in the execution of the plan	3	
20	Activity Added by State
