

Alabama Department of Public Health
Office of Radiation Control

Rule 420-3-26-.15

Rule Implementation Meetings

The Alabama Department of Public Health, Office of Radiation Control has completed the new rules for the enhanced physical security of radioactive materials, which are found in Rule 420-3-26-.15 of the Alabama Administrative Code. These rules are required to be fully implemented by March 19, 2016 and will take the place of the Increased Control Orders previously issued by the Office of Radiation Control to certain Alabama licensees.

To assist licensees in preparing for the changes, the Office of Radiation Control will be conducting three meetings to present the rule and answer any questions you may have in regards to that rule.
