ACCOMPLISHMENTS

Accomplishments

Fiscal Year 2011

PhoneMaster Appointment Reminder System

Alabama received Operational Adjustment Competitive Funds to upgrade and install 29 PhoneMaster appointment reminder system units in selected clinics. The first upgraded appointment reminder brick was installed and piloted at the Eastbrook WIC Training Clinic in April 2011. The PhoneMaster system has been successfully making appointment reminder calls at the clinic. Participants at the clinic have been very receptive to the service. Installation of the remaining appointment bricks is planned to be completed by June 30, 2011. Appointment show rates will be monitored to determine the effectiveness and benefits of the appointment reminder system. Expansion statewide will be considered if the 29 units prove effective and funding is available.

State Agency Model (SAM) Crossroads Consortium

Alabama continues to participate in the United States Department of Agriculture (USDA) funded State Agency Model (SAM) Crossroads Consortium project with North Carolina, Virginia, and West Virginia to build a model web-based WIC Management Information System. The SAM Crossroads Consortium project has completed the design phase of the project and is now in the development phase of the project. Testing will begin in 2012 and roll-out is expected to be completed by April, 2013.

Alabama WIC Cashier Guide

Alabama received Operational Adjustment Competitive funds to design, develop, and print an Alabama WIC Cashier Guide directed toward educating cashiers on the correct method for processing food instruments and how to treat WIC participants. The Vendor community had expressed a need for such a guide. This Cashier Guide will be provided to WIC vendors to utilize in the training of their cashiers. The Alabama WIC Cashier Guide is a multi-color brochure with clear instructions and tips to make the WIC transaction process a positive one. Vendor Management staff will utilize the Alabama WIC Cashier in additional vendor training sessions being offered at centralized locations across the state in FY 2011 and FY 2012.

Food Package Revisions

The biannual revision of the Alabama WIC Approved Food List for FY 2012 – 2013 was completed by the Food Package Committee. The committee is comprised of State Office staff from the three branches, Nutrition Services, Operations and Vendor Management and two Area Nutrition Directors. The Alabama Department of Public Health Information Technology Division worked closely with WIC in making the revisions to the Public Health of Alabama County Operations Network (PHALCON). Training for the Area Nutrition Directors was conducted who then trained their county/clinic staff.

Outreach Campaign

The successful FY 2010 Outreach Campaign was continued in FY 2011 to address caseload growth. The following media strategies were implemented:

- The TV commercial, developed in FY 2010, was shown statewide on both cable and network channels and targeted to areas of the state with the most potential eligibles.
- The TV commercial was shown in movie theaters. The schedule of showing was planned to coincide with the summer release of family “blockbuster” movies.
- A new effort this year was the development and use of gas pump toppers especially in areas of the state with the most potentially eligible participants.
- Another new strategy for FY 2012 included an ad visible via the internet targeting internet sites most frequently visited by women of childbearing age.

Value Enhance Nutrition Assessment (VENA) Refresher Training

The VENA Coordinator at the State Office developed and presented VENA refresher training to providers in each public health area. The coordinator assessed the turnover of staff since the initial VENA training in the planning process, as well as, feedback from observations conducted during quality assurance monitoring. The training sessions were well received.

A. Vendor Selection and Authorization

DESCRIPTION OF VENDOR PEER GROUP SYSTEM

Vendor Peer Groups Data as of June 1, 2011					
No. (1)	Description (e.g., supermarkets, chain stores, pharmacies) (2)	Number of Vendors in Peer Group			Comparable Vendors Peer Group Number (6)
		Regular Vendors (3)	Above- 50% Vendors (4)	Total (5)	
1	Type 1: Chain Store with own wholesaler	239		239	N/A
2	Type 2: Major Independent-5 or more cash registers	265		265	N/A
3	Type 3: Minor Independent-3 or more cash registers	153		153	N/A
4	Type 4: Small – 1 to 2 cash registers	78		78	N/A
5	Type 5: Above 50 % Stores		4	4	N/A

Instructions:

Column 1 – Assign a sequential number to each peer group.

Column 2 – Describe the vendors in the peer group.

Column 3 – Insert the number of authorized vendors that are regular vendors.

Column 4 – If the State agency authorizes above-50-percent vendors, insert the number of above-50-percent vendors currently authorized.

Column 5 – Insert the total number of authorized vendors. This number should be the sum of columns 3 and 4, since the State agency must identify each vendor as being either a regular vendor or an above-50-percent vendor.

Column 6 – For each peer group that contains above-50-percent vendors, insert the number of the peer group that contains comparable regular vendors. The comparable vendor peer group is the peer group that the State agency uses to derive the competitive price criteria and maximum reimbursement levels that it applies to the above-50-percent vendors. If above-50-percent vendors are placed in a peer group with regular vendors, then the number in column 1 should be the same as that in column 6. If above-50-percent vendors are in separate peer groups, then the number in column 1 will be different from that in column 6.

FOOD FUNDS MANAGEMENT

VI. FOOD FUNDS MANAGEMENT

State Agency: Alabama for FY 2012

Food funds management involves monitoring cost containment measures and procedures related to infant formula and other food items, the monitoring and management of State agency funding sources, and the accurate reporting of participation figures.

A. *Cost Containment Measures - 246.4(a)(14)(x)*: describe the policies and procedures used to implement cost containment measures as they relate to infant formula contracts, their approval and the processing of infant formula and/or other rebates, and food package cost containment practices.

B. *Funds Monitoring/798 Reporting - 246.4(a)(12)and (a) (14)*: describe the State agency's funding sources, how food obligations are calculated to allow for inflation, rebate cash management, and monthly closeout monitoring activities.

C. *Participation Reporting - 246.4(a)(11)(i)*: describe the methods used to accurately document and monitor participation at the State and local level, and methods for monitoring changes in participation by priority.

VI. FOOD FUNDS MANAGEMENT

A. Cost Containment Measures

1. The State agency seeks FNS approval related to infant formula cost containment measures (check one):

- for a waiver of the requirement for a single-supplier competitive system. State agency must complete a cost comparison projecting food cost savings in the single-supplier competitive system based on the lowest monthly net price or highest monthly rebate (as required in Section 246.16a(d)(2)(i) through (d)(2)(iii) and savings under an alternative cost containment system, Section 246.16a(d)(2)(B)
- to issue an infant formula bid solicitation that evaluates bids by highest rebate. A State agency must demonstrate to FNS' satisfaction that the weighted average retail prices for different brands of infant formula in the State vary by 5% or less, Section 246.16a(c)(4)(iii)
- not applicable

Please attach in the appendix supporting documentation for requests for FNS approval.

e. Infant Formula Issuance.

Does the State agency issue the Primary Contract Infant Formula as the first choice of issuance (by physical form), with all other infant formula infant formulas issued as an alternative? (Section 246.16a(c)(7) & 246.10(e)(1)(iii))

Yes No

The percent of infants receiving each type of formula is estimated at:

Contract

Milk-based liquid concentrate	23.52
Soy-based liquid concentrate	6.86
Milk-based powdered	16.61
Soy-based powdered	4.07
Milk-based ready-to-feed	0.13
Soy-based ready-to-feed	0.02
Other contract infant formula (including lactosefree milk-based)	23.89

Non-contract

Exempt infant formula	24.90
Non-exempt infant formula	0.00

ADDITIONAL DETAIL: Food Funds Management Appendix and/or Procedure Manual (citation):

3. The State agency's infant formula rebate solicitation/contract contains the following provisions (check all that apply):

- Does not apply (granted waiver or ITO with participation under 1000)
- Establishes the contractor's responsibility to provide sufficient quantities of products covered by contract to all authorized WIC vendors in the State.
- Requires contractor to provide a rebate on all infant formulas it produces that the State agency chooses to issue, except exempt infant formulas
- Specifies that the rebate reflects the same percentage discount on the manufacturer's lowest national wholesale cost as the corresponding physical form (i.e., liquid concentrate) of the Primary Contract Infant Formula for which bids were received.

VI. FOOD FUNDS MANAGEMENT

A. Cost Containment Measures

- Requires manufacturer to adjust for price changes subsequent to the bid opening. The provision requires a cent-for-cent increase and decrease in the rebate amounts whenever there is any change in the lowest national wholesale price for a full truckload of a particular infant formula.
- Specifies that the contractor shall pay the rebate in effect on the day the participant actually transacts the food instrument (regardless of the food instruments' issuance date).
- Requires payment of rebates on all infant formula purchased while contract is in effect, even though the contract may be void at the time payment is due.
- Stipulates sanctions for unfulfilled contract obligations (e.g., if payment is not made within 30 days of the invoice date, the contractor will pay the State agency with interest, at a rate specified in the contract, on the unpaid balance until such time as payment is made over and above the amount due from infant formula rebate.)
- Includes an extension option for a specified length of time. Terms and conditions of extension person(s) are specified in the request for bids and contract.
- Addresses billing discrepancies. Prohibits contractor from withholding rebate payments due under any circumstances. All disputes must be settled by closeout of the fiscal year in which the dispute occurred.

4. For all authorized food, including infant formula, rebate solicitations the following applies:

- The State agency provides a minimum of 30 days between the publication of the rebate solicitation and the date on which the bids are due, unless exempted by the Secretary.
- The State agency publicly opens and reads all bids aloud on the day the bids are due.
- The rebate solicitation must identify the composition of State alliances for the purpose of a cost containment measure, and verify that no additional States shall be added between the date of the bid solicitation and the end of the contract.

If single solicitation, State agency serves a monthly average of less than 100,000 infants during preceding 12-month period.

Yes No

If no, requested separate bids for milk- and soy-based formulas or other foods.

Yes No

Is solicitation for a State alliance? Yes No

VI. FOOD FUNDS MANAGEMENT

A. Cost Containment Measures

If yes, the size of alliance must be no more than 100,000 infants as of October 1, 2003, unless:

4. FI's/CVV's Redemption Screening (7 CFR 246.12(k)(1))

a. Describe in detail how the State agency sets maximum allowable reimbursement levels for use in screening food instruments for payment (including whether the State agency uses vendors' shelf prices to set maximum reimbursement levels and how reimbursement levels are linked to competitive price criteria). If the State agency sets maximum allowable amounts differently for above-50-percent vendors and regular vendors, please explain the different methods used.

We utilize the following peer group structure:

Type 1 stores: Chain stores that act as their own wholesaler.

Type 2 stores: Major independent stores with five or more cash registers.

Type 3 stores: Minor independent stores with three or four cash registers.

Type 4 stores: Small stores with one or two cash registers, excluding >50% stores.

Type 5 stores: >50% stores.

Periodically, individual food prices from the vendor price surveys will be downloaded into a spreadsheet and an analysis is conducted by peer group. Individual item prices will

IX. FOOD DELIVERY/FOOD INSTRUMENT (FI)/ CASH-VALUE VOUCHER (CVV) ACCOUNTABILITY AND CONTROL

C. Food Instrument/Cash-Value Voucher Redemption and Disposition

have averages and standard deviations computed. Any store whose individual price exceeds its peer group by two standard deviations will be notified to reduce its price. Our contract bank is sent the maximum allowable prices by peer group for each food instrument type on a daily basis. No prices from >50% stores will be included in computing averages and standard deviations. Type 5 (>50%) store prices will be held to the statewide average of redeemed food instruments prices, excluding the redemption of Type 5 (>50%) stores.

(1) The State agency establishes maximum allowable reimbursement levels for:

- | | | |
|---|---|-----------------------------|
| (a) Each peer group | Yes <input checked="" type="checkbox"/> | No <input type="checkbox"/> |
| (b) Each food instrument or food category | Yes <input checked="" type="checkbox"/> | No <input type="checkbox"/> |

| (b) A percentage above the average redemption amount | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

- | | | |
|----------------------------------|------------------------------|-----------------------------|
| (c) Other (please specify) _____ | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

F. Vendor Cost Containment System Certification

If the State agency has authorized or plans to authorize any above-50% vendors, FNS must certify the vendor cost containment system. A State agency that has not yet received FNS certification must submit a request for certification that contains the following information.

DOES NOT APPLY (PROCEED TO SECTION G)

1. Calculation of new competitive price levels

Describe how the State agency derived or will derive new competitive price levels for regular vendors, which exclude the prices of above-50-percent vendors. **Individual food prices of regular vendors will be analyzed by peer group. Averages and standard deviations will be computed for individual food items. The competitive price level will be the average, plus two standard deviations.**

2. Allowable reimbursement levels for regular vendors and above-50-percent vendors

a. Explain how the State agency will ensure that average payments to above-50-percent vendors do not exceed average payments to comparable regular vendors. Averages of food instruments redeemed by regular vendors (excluding above 50 percent vendors) will be calculated monthly. The monthly price maximum will be distributed to the above 50 percent vendors, who will not be allowed to receive reimbursements exceeding these averages.

b. The State agency plans to exempt above-50-percent vendors from the competitive price criteria and allowable reimbursement levels.

Yes No

If yes, describe the procedure or process used: **Individual food prices of regular vendors will be analyzed by peer group. Averages and standard deviations will be computed for individual food items. The competitive price level will be the average, plus two standard deviations. Describe the State agency's methodology for grouping above-50-percent vendors in its peer group system (i.e., separately or in peer groups with regular vendors) and the criteria the State agency uses to identify comparable vendors for each group of above-50-percent vendors. Vendors are grouped in the above 50 percent vendor peer group if the vendors receive more than 50 percent of their annual sales revenue from WIC food instruments.

4. The State agency plans to exempt *non-profit* above-50-percent vendors from competitive price criteria and allowable reimbursement levels.

Yes No

If yes, provide the following information in detail:

a. The reason the State agency has decided to exempt such vendors (i.e., the benefits to the program) and the number of non-profit vendors to be exempted;

b. The reason the non-profit above-50-percent vendors are needed to ensure participant access to supplemental foods;

c. How the prices of the non-profit vendors compare to those of other vendors in their geographic area that are subject to competitive price criteria and allowable reimbursement levels; and

d. How the State agency will establish the level of reimbursement for the non-profit above-50-percent vendors that it has exempted.

5. The State agency has fully implemented the competitive price criteria and allowable reimbursement methodologies described in items 1 and 2 above.

7. Complete the three tables on the following pages to demonstrate that the State agency's procedure for establishing and implementing competitive price criteria and allowable reimbursement levels ensures that average payments per food instrument or food item to above-50% vendors do not exceed average payments to regular vendors.
8. Attach a copy of the report(s) that the State agency will use to monitor average payments per food instrument to above-50% vendors and regular vendors. If the State agency does not have such a report, describe the State agency's plans to develop and implement a report(s) for monitoring purposes, including the report contents or fields.
Average payments per food instrument to above 50 percent vendors and regular vendors are monitored using a report containing the same field as the report on page IX-23 of this document.

F. Vendor Cost Containment System Certification

(Note: If the State agency has completed the peer group table in the Vendor Management section of this Guidance, skip the following table.)

Table 2: Data for WIC Vendor Cost Containment Certification – Peer Group Structure

Please describe all vendor peer groups and identify the regular vendors that are comparable to each group of above-50-percent vendors. The information provided should refer to the peer group system as structured to comply with the new vendor cost containment requirements.

Peer Group					Comparable Vendors Peer Group Number (Col6)
Peer Group No. (Col1)	Description (e.g., supermarkets, chain stores, pharmacies) (Column 2)	Number of Vendors in Peer Group			
		Regular Vendors (Col3)	Above-50% Vendors (Col4)	Total (Col5)	
1					
2					
3					
4					

Instructions:

Column 1 – Assign a sequential number to each peer group.

Column 2 – Describe the vendors in the peer group.

Column 3 – Insert the number of authorized vendors that are regular vendors.

Column 4 – Insert the number of above-50-percent vendors currently authorized.

Column 5 – Insert the total number of authorized vendors. This number should be the sum of columns 3 and 4, since the State agency must identify each vendor as being either a regular vendor or an above-50-percent vendor.

Column 6 – For each peer group that contains above-50-percent vendors, insert the number of the peer group that contains comparable regular vendors. The comparable vendor peer group is the peer group that the State agency uses to derive the competitive price criteria and maximum reimbursement levels that it applies to the above-50-percent vendors. If above-50-percent vendors are placed in a peer group with regular vendors, then the number in column 1 should be the same as that in column 6. If above-50-percent vendors are in separate peer groups, then the number in column 1 will be different from that in column 6.

Table 3: Data for WIC Vendor Cost Containment Certification – Average Payments to Vendors

Using the format below, provide the latest available redemption data for the ten (10) most frequently redeemed food instrument types. Then indicate how these amounts have changed or will change with the implementation of the revised competitive price criteria and allowable reimbursement amounts. Prepare a separate table for each group of above-50-percent vendors identified in Table 2.

IX. FOOD DELIVERY/FOOD INSTRUMENT (FI)/ CASH-VALUE VOUCHER (CVV) ACCOUNTABILITY AND CONTROL
F. Vendor Cost Containment System Certification

Instructions:

Begin by identifying the above-50-percent vendors to which the data in the chart refer. Insert the peer group number for the above-50-percent vendors and write it on the line at the top of the chart. All data in the chart should pertain only to the above-50-percent vendors in the peer group and the comparable regular vendors. Complete a separate table for each group of above-50-percent vendors and comparable regular vendors identified in the table 2.

- Column 1 – Insert the food instrument (FI) type or number and list the foods included on the FI. Include no more than two infant formula food instrument types, but complete the chart using the next most frequently redeemed food instrument types.
- Column 2 – For each type of FI identified in column 1, insert the number of food instruments redeemed (paid) in June (the calendar month). If the State agency implemented competitive price criteria and allowable reimbursement levels that comply with the new vendor cost containment requirements before June, then select the calendar month before the State agency applied the new competitive price criteria and allowable reimbursement levels.
- Columns 3 & 4 – Insert the average food instrument redemption amount and the standard deviation for the above-50-percent vendors and for the regular vendors that the State agency has identified in Table 2 as comparable vendors. As an alternative to providing average payments to comparable regular vendors, the State agency may enter average payments to all regular vendors. If the State agency provides data for all regular vendors rather than average payment to comparable vendors, indicate this on the table or in the accompanying narrative.
- Column 5 – Subtract the amount in column 4 from the amount in column 3 and enter the difference here. If the amount in column 3 is less than that in column 4, enter the difference as a negative dollar amount.
- Column 6 – Insert the average food instrument redemption amount for above-50-percent vendors *after* the State agency has applied the revised competitive price criteria and allowable reimbursement levels. If the State agency has implemented new competitive price criteria and allowable reimbursement levels before submitting its request for certification to FNS, then the data in column 6 should be actual redemption data for the above-50-percent vendors and comparable regular vendors. Insert the calendar month(s) to which the data pertain. If the State agency does not have actual redemption data, then the State agency must estimate the new average redemption amounts.
- Column 7 – Insert the average redemption amounts for the corresponding group of comparable vendors. If the State agency has not yet implemented its revised methodologies, insert the target date to which the estimated average redemption amounts would apply. In the narrative that accompanies this data, discuss in detail the rationale for the State agency’s estimated average redemption amounts in columns 6 and 7. The average redemption amount for above-50-percent vendors may not exceed the average redemption amount for comparable vendors.

FY 2012 State Plan - Outline for EBT Implementation:

- Alabama is a member of the State Agency Model (SAM) Crossroads Consortium along with Virginia, West Virginia, and North Carolina as the lead State agency. The anticipated statewide rollout of the SAM Crossroads Management Information System (MIS) is April 2013. Alabama has made the decision to implement EBT after the statewide Crossroads rollout.
- State staff are actively engaged in planning activities so that Alabama is prepared to begin an EBT pilot shortly after the Crossroads statewide rollout.
- The Alabama Department of Public Health WIC program is currently in the process of completing a feasibility study to determine whether or not to implement an on-line or off-line EBT operating system.
- Alabama received a planning grant October 2009 and recently applied for an extension which will allow Alabama to continue planning activities through 2012.
- An EBT team has been established within the Alabama Department of Public Health which includes members of the WIC staff and Information Technology (IT) staff.
